# ***General Information***

## **PRICING**

This price list is subject to change without notice. All agreements are contingent upon strikes, accidents or other causes of delay beyond our control. All shipments will be invoiced at the price prevailing at time of shipment. All amounts are stated in U. S. dollars.

## **PAYMENT TERMS**

1% discount 15 days, net 30 days. There is a 1.5% service charge on all invoices not paid after 30 days. This is an annual percentage rate of 18%. All invoices paid after 15 days will be allowed NO DISCOUNTS.

## **FREIGHT**

All freight will be F.O.B. Stenno Carbon Company. Stenno will prepay freight and bill upon invoice. Freight damage claims are to be entered by the customer with the delivering carrier.

## **RETURNS AND ALLOWANCES POLICY**

The policy of Stenno Carbon Co. is to guarantee the quality of the products it produces within the manufacturing tolerances specified in the catalog. We will guarantee 100% of the invoiced cost of the material supplied by Stenno Carbon Co.

In the case of material supplied with a defect that it is reasonable to assume could have been detected by the forms manufacturer prior to being printed or interleaved into forms, Stenno Carbon Co. will cover only the delivery cost of the materials supplied by Stenno Carbon Co.

In those few instances where the defect could not – with reasonable inspection – have been detected by the forms manufacturer prior to being printed or collated, Stenno Carbon Co. will cover the cost of all materials and labor, but no mark-up, over direct costs.

## **QUALITY OF WRITE**

We pride ourselves on producing a high quality product that will result in a minimum of problems. However, good carbon copy depends on using proper paper, proper writing instrument and proper writing surface. Accordingly, carbon should be tested in actual conditions of use and inspected prior to insertion into forms.

Claims and adjustments will not be entertained without notification of and approval by Stenno Carbon Co. management.

## **STRIPING OR PATTERN TOLERANCE**

Stenno Carbon Co. guarantees to hold the tolerances as published in the catalog on striping and spot carbon patterns, but will not be responsible for holding tolerances to less than those published in the catalog. In those cases where the stripe or pattern is supplied incorrectly by Stenno Carbon Co., it is reasonable to assume that these specifications will be checked by the business forms manufacturer before or during set-up of the job. If a problem exists, Stenno Carbon Co. will be responsible only for the cost of the materials supplied by Stenno Carbon Co., but not for lost machine time or forms.

## **DIMENSIONAL STABILITY**

The published tolerances on all marginally punched material are in the catalog. The tolerances are determined by drawing the material out straight and then measuring on a relaxed web. Material that does not meet the published specifications is not in tolerance and will be replaced by Stenno Carbon Co. Once material is interleaved into forms and is in tolerance during the interleave operation, Stenno Carbon Co. no longer has responsibility and will not pay any claim for incorrect lengths.

Stenno Carbon Co. will assume responsibility for marginally punched spot carbon or processed carbon produced by Stenno Carbon Co. for a period of 60 days from date of shipment from the Stenno Carbon Co. plant. If material is not interleaved within 60 days of shipping date and the lengths are found not to be in tolerance after this 60-day period, Stenno Carbon Co. will assume no responsibility for collated or uncollated carbon.

When Stenno Carbon Co. sells unprocessed rolls and these rolls are processed by another entity, or if slits are used in continuous forms, no liability for dimensional stability will be assumed by Stenno Carbon Co.

## ***General Information, (continued...)***

### **PROCEDURE FOR ESTABLISHING A CLAIM**

1. When defect is noted, a Stenno Carbon Co. customer service representative should be contacted immediately by telephone. If defect appears to be transit damage, the delivering carrier must also be notified so an inspection report can be completed promptly and properly.
2. The telephone notice and any agreements regarding the claim should be immediately confirmed, in writing, by the business forms manufacturer. Representative samples of the defect should be forwarded to the customer service representative who handled the initial call.
3. The business forms manufacturer should maintain records of all efforts made to correct defects. Identified samples of defective material, along with roll labels, should be retained until the matter is resolved. This includes finished forms if product has already been printed and/or interleaved into forms.
4. When replacement of product is necessary, Stenno Carbon Co. will make every effort to make that replacement promptly. The forms manufacturer should contact his/her customer regarding the replacement deadline so that misunderstandings do not occur.
5. If the business forms manufacturer is entitled to reimbursement over and above replacement of the Stenno Carbon Co. product, the business forms manufacturer is expected to request reimbursement by submitting written records detailing all costs incurred in the reprinting of the form. Credit will not be issued until Stenno Carbon Co. receives such information in writing on business forms company letterhead.

### **INSPECTABLE DEFECTS**

Inspectable defects would include such items as listed below. It is reasonable to assume they should be checked before forms are printed and/or interleaved:

1. Incorrect perforation position or omission of perforation when ordered
2. Incorrect tab position or tab type
3. Incorrect number of ties in longitudinal or horizontal perforation when throughout the roll
4. Registration of cross perforations (horizontal perforation) to line hold punching and/or registration of spot patterns to line hole punching or perforations
5. Incorrect color or type of material having been shipped
6. Incorrect width or footage per roll
7. Incorrect multiples or footage per roll
8. Offset of carbon on uncoated side
9. Incorrect pattern or stripe
10. Incorrect position of line hole punching or incorrect number of line hole position.

### **COLLATOR AND/OR PRESS TIME**

No reimbursement for collator and/or press time will be made if the defect would be classified as an inspectable defect.

In those cases where credit for collator time and/or press time is justified, the credit will be issued on direct cost.

### **SAMPLES**

All samples supplied by Stenno Carbon Co. as sales samples are subject to manufacturing tolerance of plus or minus 10% on actual delivered material. Any write outside of this will be a basis for reduction if, in the determination of Stenno Carbon Co., the write compared to standard samples exceeds the plus or minus 10% limitation. In the case of spot carbon, only spot carbon samples should be used for determination of write.

## ***Stock Carbon Slit Rolls***

Any stock roll carbon listed on an individual Stenno Carbon Co. plant's stock list will be priced according to the price list below. Stock items may be combined for better unit pricing.

## ***Stock Carbon Slit Rolls***

### **PRICE LIST**

<b>STANDARD WEIGHT – 8 LB.</b>				
<b>DESCRIPTION</b> <i>Stock Carbon Slit Rolls</i>	<b>CARBON CODE</b>	<b>PRICE PER UNIT</b>		
		<b>1-2000 UNITS</b>	<b>2001-4000 UNITS</b>	<b>4001+ UNITS</b>

Extra Intense Blue	8E1	1.16	1.14	1.11
Hard Blue	8E7	1.12	1.085	1.043

#### **LIGHTWEIGHT TISSUE**

All products listed above can be manufactured on lightweight 7# tissue; please add \$0.35 per unit for lightweight tissue. Lightweight tissue is considered a specialty item which requires a \$130.00 setup charge on all quantities.

#### **HEAVYWEIGHT TISSUE**

All products listed above can be manufactured on heavyweight 9# tissue for roll to sheet applications; please add \$0.28 per unit for heavyweight tissue. Heavyweight tissue is considered a specialty item which requires a \$130.00 setup charge on all quantities.

#### **MINIMUM CHARGES**

The minimum unit charge for any roll carbon is \$65.00 per item in addition to any other make-ready or special charges.

***REFER TO PAGE 5 FOR OTHER MADE-TO-ORDER SPECIAL CHARGES.***

## ***Made-To-Order Slit Rolls***

### **SPECIFICATIONS**

<b>Roll Widths</b>	Up to 44". Order to the nearest 1/32". Slit width tolerance: Plus or minus 1/32".
<b>Roll Striping</b>	Stripes run continuously the length of roll. Number of stripes limited only by width of roll. Minimum width of stripes: 1/8".
<b>Roll Length</b>	All orders should specify desired and/or maximum length acceptable.
<b>Roll Diameter</b>	40" Maximum. All orders should specify maximum diameter acceptable.
<b>Packaging</b>	Top opening corrugated carton for smaller orders. Skids or pallets used for larger orders. Skids and pallets are packaged in clear stretch wrap.
<b>Units</b>	One unit equals 1" x 1000 feet long or 12,000 square inches. Width of carbon is figured exactly to compute the number units.

## ***Made-To-Order Slit Rolls***

### **SPECIAL CHARGES**

<b>Make-Ready Charges</b>	\$110.00 for each item under 2,000 units. \$130.00 for Face out winding.
<b>Perforating Charge</b>	\$.05 per unit per line. Minimum charge of \$55.00 per line.
<b>Internal Striping</b>	\$70.00 for each internal stripe per item.
<b>Face Out Winding</b>	\$.09 per unit. Minimum \$55.00.
<b>24-Hour Rush Charge</b>	\$145.00
<b>48-Hour Rush Charge</b>	\$95.00

# ***Spot Carbon***

## **PRICE LIST**

(Prices Include Marginal Punching)

<b>STANDARD – 9 LB.</b>			
<b>DESCRIPTION</b> <i>Spot Carbon</i>	<b>CARBON</b> <b>CODE</b>	<b>PRICE PER UNIT</b>	
		<b>1-1000 UNITS</b>	<b>1001+ UNITS</b>

Hard Blue/Blue	9DF7AC	2.8600
Hard Black/Blue	9DF6/7AC	2.8600

**REFER TO PAGE 8 FOR SPOT CARBON SPECIAL CHARGES**

# *Spot Carbon*

## **SPECIFICATIONS**

<b>Roll Width</b>	3" to 21". Order to nearest 1/32". The roll width is undercut 1/32" on marginally punched side only. Minimum width for billing purposes is 10".
<b>Roll Diameter</b>	24" Maximum
<b>Carbon Coating and Striping</b>	<p>Any combination of carbonized or uncarbonized area is possible within these limitations:</p> <ol style="list-style-type: none"><li>1. All patterns must provide a total of at least 1/16" uncarbonized area at some position across the web at every cross perforation or cut-off position. If not specified, 1/32" will be taken at top and bottom.</li><li>2. Limitation on coating accuracy: 1/16" variation on each of four sides of any coated area.</li><li>3. Uncarbonized stripes may run continuously the length of the roll.</li><li>4. Minimum width of stripe is 1/8", plus or minus 1/32".</li><li>5. Patterns requiring extensive plate cutting (as defined by Stenno Carbon Company) may be charged an extra \$55.00, \$105.00 or \$155.00. You will be notified prior to manufacturing if extra charges apply.</li></ol>
<b>Roll Winding</b>	Face in and face out.
<b>Available Spot Cylinder Sizes</b>	28", 24", 22", 20", 17" and 14".
<b>Marginal Punching</b>	6/32" diameter holes placed 1/2" vertically center-to-center. When there are double line holes, the horizontal distance between rows of holes is 1/2" center-to-center.
<b>Tabs</b>	<p>Two styles are available:</p> <ol style="list-style-type: none"><li>1. Center Tab: Uses semi-circular tab with 1/16" tie at top of semi-circle.</li><li>2. Corner Cut: Provides a triangular extraction feature at edge of form. Corner cut stops 1/16" short of marginal punching.</li></ol>

# *Spot Carbon*

## **SPECIAL CHARGES**

<b>Make-Ready Charge</b>	\$135.00 Make Ready Plate Charge per item.
<b>Ink Change (Same Pattern)</b>	\$60.00
<b>Change In Pattern Width</b>	\$55.00.
<b>Longitudinal Perf</b>	\$.05 per unit per line. Minimum \$55.00 per line.
<b>Tab Cut</b>	\$.09 per unit per tab. Minimum \$55.00 per tab.
<b>Cross Perf</b>	\$.09 per unit per line. Minimum \$55.00 per line.
<b>Face Out Winding</b>	\$.09 per unit. Minimum \$55.00.
<b>5/32" Punches</b>	\$65.00
<b>Flex Cut</b>	\$.09 per unit per cut. Minimum \$55.00 per cut.
<b>24-Hour Rush Charge</b>	\$145.00
<b>48-Hour Rush Charge</b>	\$205.00
<b>Doubleface Spot Make-Ready Pattern/Full</b>	\$205.00
<b>Doubleface Spot Make-Ready Pattern/Pattern</b>	\$400.00

**NOTE:** If two jobs can be run in succession with one plate, there is only one set-up charge for both.

# ***Process Carbon***

## **PRICE LIST**

(Prices Include Marginal Punching)

<b>STANDARD – 9 LB.</b>			
<b>DESCRIPTION</b> <i>Process Carbon</i>	<b>CARBON</b> <b>CODE</b>	<b>PRICE PER UNIT</b>	
		<b>1-1000 UNITS</b>	<b>1001+ UNITS</b>
Medium Black	8E4PC	1.5650	1.5250
Intense Black	8E2PC	1.5850	1.5450

### **MINIMUM CHARGES**

The minimum unit charge for any spot or process carbon is \$65.00 per item in addition to any other make-ready or special charges.

***REFER TO PAGE 11 FOR PROCESS CARBON SPECIAL CHARGES.***

# ***Process Carbon***

## **SPECIFICATIONS**

**Roll Width** 3" to 21". Order to nearest 1/32". So carbon paper does not protrude from the edges of the form, roll width, as ordered, is undercut 1/32" on marginally punched side or sides.

**Roll Striping** Stripes run continuously the length of the roll. Minimum width of stripe is 1/8". Manufacturing tolerance of striping is plus or minus 1/32".

**Cross Perf Length**

<b>28</b>	14	7	3 1/2	
<b>22</b>	11	7 1/3	5 1/2	3 2/3
<b>17</b>	8 1/2	4 1/4		

**Marginal Holes** 6/32" diameter holes placed 1/2" vertically center-to-center. When there are double line holes, the horizontal distance between rows of holes is 1/2" center-to-center.

**Tabs** Two styles are available:

1. Center Tab: Uses semi-circular tab with 1/16" tie at top of semi-circle.
2. Corner Cut: Provides a triangular extraction feature at edge of form. Corner cut stops 1/16" short of marginal punching.

**Longitudinal Perfs** Continuous the length of the roll. Can be placed at one or more positions along the length of the roll, but no less than 1/4" from either edge. Standard perforation is 6 ties per inch. Perforation tie is .035".

## ***Process Carbon***

### **SPECIAL CHARGES**

<b>Make-Ready Charge</b>	\$135.00 Make-Ready Charge on all items.
<b>Longitudinal Perf</b>	\$.07 per unit per line. Minimum \$55.00 per line.
<b>Tab Cut</b>	\$.09 per unit per tab. Minimum \$55.00 per tab.
<b>Cross Perf</b>	\$.09 per unit per line. Minimum \$55.00 per line.
<b>5/32" Punches</b>	\$65.00
<b>Face Out Winding</b>	\$.09 per unit. Minimum \$55.00.

<p>CORNER TONGUE WHICH TERMINATES AT MARGINAL PERFORATION</p>	<p>NO TONGUE - NO CROSS PERFORATIONS</p>
<p>CORNER TONGUE WHICH TERMINATES AT MARGINAL PUNCH AND IS CUT THROUGH BY MARGINAL PERFORATION</p>	<p>DOUBLE ROW HOLE PUNCHING</p>

## ***Double Face Carbon***

### **PRICE LIST**

<b>STANDARD – 8 LB.</b>		
<b>DESCRIPTION</b> <i>Double Face Carbon</i>	<b>CARBON CODE</b>	<b>PRICE PER UNIT</b>
Medium Black	9DF6	1.3650
Medium Blue	9DF7	1.4050

### **SPECIAL CHARGES**

- Make-Ready Charge**      \$130.00 Double Face Make-Ready Charge per item.
- Perforating Charge**      \$0.05 per unit per line. Minimum charge of \$55.00 per line.

## ***Flexperf Carbon***

**Flexperf Carbon** is designed to allow glued continuous forms a degree of flexibility to relieve the “tenting” effect experienced with multi-ply forms.

### **PRICE LIST**

For **Flexperf Carbon** pricing, add \$0.30 per unit to Made-To-Order bracket pricing on page 4 of the catalog.

### **SPECIAL CHARGES**

**Make-Ready Charge**      \$130.00 Make-Ready Charge on all quantities.

**Flex-Perf Charge**      \$55.00 per flex-perf.

**Designs Offered:**

- Carbons Flex Right and Flex Left must be alternated in the form.
- One glue line should be on the 1/8" clean edge – glued down.
- One glue line should be inside the flex slits on the uncoated top of the carbon tissue.
- Stub width on the glued side of the forms should be at least 3/4"

## ***Coated Book Carbon*** **(White Paper)**

### **PRICE LIST**

<b>DESCRIPTION</b> <b><i>Coated Book Carbon</i></b>	<b>CARBON CODE</b>	<b>PRICE PER UNIT</b>
Black Coated Book	28B4	1.7450
Blue Coated Book	28B5	1.8150

### **GENERAL INFORMATION**

*Coated Book Carbon* is available on white paper only. If color paper is desired, order SpecCheck (see following page.)

### **SPECIAL CHARGES**

**Make Ready Charge**      \$150.00 per item.

**Perforating Charge**      \$.05 per unit per line. Minimum charge of \$55.00 per line.

### **SHEETS**

*Coated Book Carbon* is also available in sheets.

**Cutting Charge**      \$3.00 per 1000 sheets; \$35.00 minimum per item.

# ***Carbonized Bond***

## **PRICE LIST**

<b><i>DESCRIPTION</i></b> <b><i>Carbonized Bond</i></b>	<b>CARBON CODE</b>	<b>PRICE PER UNIT</b>
Black Hard Carbonized Bond	C-106	1.8150
Blue Hard Carbonized Bond	A-101	1.8150
Gray Hard Carbonized Bond	DP-350	1.8150
Purple Hard Carbonized Bond	MCP-11	1.8150

## **PAPER COLORS AVAILABLE**

(ON SPECIAL ORDER BASIS)

Pink      Blue      Canary      Green

## **SPECIAL CHARGES**

**Make Ready Charge**      \$150.00 per item.

**Perforating Charge**      \$.05 per unit per line. Minimum charge of \$55.00 per line.

**Colored Paper**      Add \$0.35 per unit.

## **SHEETS**

***Carbonized Bond*** is also available in sheets.

**Cutting Charge**      \$3.00 per 1000 sheets; \$35.00 minimum per item.

877-890-8710 Indianapolis, IN, 800-700-8313 Portland, OR

# ***Flat Sheets (One-Time Carbon)***

## **GENERAL INFORMATION**

### **Sheet Striping**

- Stripes run continuously the length of the sheet. Number of stripes limited only by the width of the sheet.
- Minimum width of stripes – 1/4”
- Manufacturing tolerance of striping is plus or minus 1/32”

### **Packaging**

- Standard Package – 1000 sheets (2 reams)
- Chip board dividers on top, bottom and between sheets 500 and 501.
- Contents label on one end.

### **Curl**

Curl in flat sheets is due cause for rejection of carbon if the curl exceeds plus or minus 10% from horizontal at 50% relative humidity and 78°F, providing there are no other contributing factors such as carbon becoming wet in transit, excessive temperature and/or humidity in storage in forms manufacturers’ plants or unsuitable storage practices such as placing cartons on edge or improperly stacking packages. Measurement of curl is determined by laying sheets of carbon on a flat surface and visually determining amount of lift of the edges.

# ***Flat Sheets (One-Time Carbon)***

## **STANDARD SHEET PATTERNS**
